

Consult-PRO Patient Education Software

Consult-PRO, by DHC Software, leads the industry in dental case presentation and patient education software. Consult-PRO uses the power of the computer and graphic animations to empower the user to present comprehensive case presentations. It will help the patient understand the problem, the consequences of non-treatment, the possible solutions, and ultimately accept the proposed treatment plan by you. With Consult-PRO, it is easy to explain complicated dental treatments to patients.
