[What is the MedicTalk Admin?](#)

What are the main DentForms' features?

MedicTalk DentForms is a user friendly application, designed to bring your office much closer to the paperless environment. The main features of the DentForms are:

- collecting electronic signatures (patient, doctor, and witness)
- easy collecting and storing of consent forms and other documents (such as HIPAA, financial agreement, etc.)
- easy collecting and storing of patients' questionnaires
- getting the patients' signatures in electronic format under the treatment plans
